MUSICACTION

Fondation Musicaction is a non-profit organization founded in 1985 by private broadcasters and music industry professionals. Its main objective: contributing to the development of local francophone music by offering financial support to projects undertaken by independent record labels and Canadian artists. From production, sound recording and collective initiatives on international markets, to supporting album marketing, live performances and the promotion of artists from minority francophone communities, Musicaction provides the recording industry community with a wide array of tools designed to stimulate the growth and exposure of original French Canadian music.

To this end, Musicaction, through contribution agreements with Canadian Heritage, manages the francophone portion of two Canada Music Fund programs: *New Musical Works* and *Collective Initiatives*. Contributions from private radio broadcasters reinforce Musicaction's involvement with the two programs. Since 2002, the Foundation has also been managing Fonds RadioStar, which aims to promote and market local francophone music. Fonds RadioStar is 100% funded by private radio broadcasters.

CHAIRMAN'S MESSAGE

2016-2017: FULL STEAM AHEAD

The fiscal year ended March 31, 2017, was fast-paced, to say the least. The Foundation steamed ahead on every front—from its governing bodies to its program offerings. However, while 2016-2017 may have been stimulating and action-packed, market conditions also made it a year of inward reflection.

Various Board committees launched at the end of the 2015-2016 fiscal year were bustling with activity. The Audit and Finances committee went over internal budget processes with a fine-tooth comb and reviewed Foundation investments. Meanwhile, the Human Resources committee approved our *Training and Development Policy* document, the *Recruiting and Hiring Practices Policy*, and a comprehensive *Code of conduct and ethics*. A policy regarding diversity on the Board of Directors was also put forward, speaking to the Foundation's commitment to gender parity.

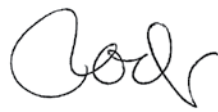

Things were just as active on the program front. *Emerging Artists Support* and *Artist Management* were revamped for increased program access, and the *Songwriter and Composer* component was reviewed, with a new iteration slated for 2017-2018. The Program Review committee also looked at broader access issues and, more specifically, the *New Musical Works* component. We began thinking about these matters in 15-16, and continued into 16-17. In 17-18, we will be partnering with the music industry and the Music Policy and Programs Directorate (MPPD), administered by the Minister of Canadian Heritage, to examine new allocation structures in the wake of recent consultations by the Minister.

The Minister also granted us additional funding in 16-17 as part of the "Showcasing Canada's Cultural Industries to the World" initiative. We were awarded \$1,660,000 over two years (\$830,000 for 16-17, and \$830,000 for 17-18) for our export-related activities. We wish to thank the Minister of Canadian Heritage for this gesture of confidence. Amounts received during the year have helped us meet unprecedented demand for international activities, and prepare for an upsurge in foreign market investments from key players in the francophone music industry.

Fresh perspectives and approaches have fuelled this drive toward exporting. In addition to exports, this report covers two other overarching themes for 2016-2017: artist management, and tomorrow's artists and entrepreneurs. In light of evolving market conditions and projections, it is critical that the Foundation keep abreast of new industry trends.

At a time when the francophone music sector faces game-changing hurdles, Musicaction is poised to take on another major challenge: its own financing. The Foundation must find solutions to sustain and stabilize its annual revenues in the medium and long-term—and fast.

Finally, I wish to highlight the work of our dedicated staff and administrators, whose actions, guided by our core values of integrity, access, adaptability, skill and interaction, allow us to continue developing and advocating for our local music industry—together.

Pierre Rodrigue
Chairman of the Board of Directors

BOARD OF DIRECTORS AND MUSICACTION STAFF

The Board of Directors is made up of 14 voting members. They consist of five broadcaster representatives appointed by CAB, four industry representatives appointed by ADISQ, two songwriter representatives appointed by SPACQ and three individuals with knowledge of the Canadian music industry, including one representative from the publishing industry. They also ensure that francophone minority communities in Canada are represented on the Board.

The Board of Directors approves the Foundation's strategic orientations and measures their progress, makes sure the programs are being managed effectively and efficiently, and is responsible for the organization's financial oversight. More specifically, with regard to the funding approval process, the Board's role is limited to accepting during its meetings a list of applications submitted by the administrative staff. As a result, Board members do not review individual applications, other than special situations occasionally brought to their attention. This minimizes the risk of potential conflicts of interest.

As for the administrative staff, it consists of 15 employees. It is entrusted with the management of day-to-day operations, under the supervision of the executive leadership. The staff reviews over 1,000 applications a year, and based on the type of funding requested, adheres to firmly entrenched procedures that include control mechanisms at every step of the process to ensure applications are thoroughly and fairly reviewed. The Foundation's employees and Board members are governed by a confidentiality agreement and conflict of interest guidelines.

TOMORROW'S ARTISTS—AND INDUSTRY PLAYERS

Up-and-coming talent has always been a cornerstone of the Foundation's funding programs. This year, we reviewed and retooled our emerging artist programs to reflect the role we hope to play in their careers. Component 1 of *Emerging Artists Support*—now called *Production Support*—was streamlined and overhauled to more closely resemble its precursor program, *Demo Support*, which helped artists develop concrete promotional tools for use in industry interactions. Our review also exposed the remarkable effect of component 2, *Artist Integration*, particularly in the work carried out by organizations developing emerging artists. Their funding and professionalization programs boast impressive success rates, with over 25% of supported artists going on to receive funding from Musicaction as part of other programs and components; such organizations are integral to effective industry integration.

Contemporary French-speaking singing talent is sourced from a steady supply of up-and-coming artists and industry support frameworks—and this is also true of entrepreneurial talent. Access is one of our core values, so Musicaction helps new entrepreneurs—of any age—grow their careers with our *New Musical Works* programs. Brandishing its own vision and methods, this new client base joins its entrepreneurial predecessors in continued efforts to spotlight emerging and established francophone acts.

Year after year, we see upcoming entrepreneurs demonstrate skill and confidence as they take the reins of our industry.

RECOGNIZING MANAGEMENT TALENT

Ten years ago, the Foundation collaborated with the ADISQ to create an *Artist Management* program open to independent managers—the first of its kind. Six years later, the program’s second iteration extended its applicant base to producers and record labels occupying a management role.

Launched in 16-17, the third version of our program—which aims to acknowledge the artist manager’s vital role—was designed around three key client survey findings. First, as managers take on an increasingly challenging and wide-ranging workload, the program’s distinction between independent managers and record labels, especially with regard to fund allocation, no longer holds. Second, with artist management cited as a common industry entry point, new entrepreneurs and managers from French-speaking minority communities should be given equal access to the program. Third, considering the long timelines required to bring projects to fruition, the requirement to represent at least one artist having released a maximum of two albums at the time of application severely limits the potential for long-term support.

These conclusions resulted in major changes to the *Artist Management* program, including new eligibility criteria based on the company’s age: under five years (or tied to a minority community), and five or more years—a change that facilitates support for emerging entrepreneurial talent. The emerging artist requirement was extended to three albums in the course of their career, instead of two, and the number of eligible artists was extended to three or more. The new program rules emphasize the importance of supporting both up-and-coming artists and established talent. Finally, considering the innovative approaches managers take in developing the careers of the artists they represent, we retained and restated their autonomy with regard to expenditures.

THE EXPORTING CHALLENGE

Midway through the 2016-2017 fiscal year, we noted increased demand over the previous year for our international programs. Fortunately, it was at this time that the Minister of Canadian Heritage pledged an additional \$830,000 for export-related activities. Such support from the federal government has allowed us to process and fund an unprecedented number of talent, organization and company export projects throughout the country's francophone communities.

Practically speaking, the funding has allowed us to accept ten more collective showcase projects than anticipated in our preliminary budget for the *International Market Development* program. We also consolidated funding for three more showcases and three group acts in entertainment markets. Nearly 50 artists will gain visibility thanks to these federal funds.

In the individual *International Marketing* program, 41 more promotion and entertainment projects were funded in 16-17 than the previous year. As a result, 12 more artists received support for international prospecting and development.

The increase also provided a major boost to group and individual representation in target international markets, including the approval of 27 more trips abroad for Canadian professionals than the previous year (an additional \$42,000). The figures for 16-17 are all the more impressive when one considers that 25 trips in 15-16 were made for the BIS 2016, a biannual event in Nantes.

The industry's recent drive to export homegrown francophone talent continues to gain traction, and our continually evolving programs strive to meet new demands and generate genuine professional gains for our artists on the international stage—"win-win" group and individual achievements we hope to highlight in the years to come.

CANADA'S FRANCOPHONE COMMUNITIES, A REAL SOURCE OF INSPIRATION!

There's no denying the strength and vitality of the francophone communities' artists and artisans across the country. Year after year, the Musicaction Foundation witnesses, from front row seats, extraordinary artistic development and continuous professionalization.

This is how—alongside the more established artists that are **Annette Campagne** (Saskatchewan), **Les Hôtesse d'Hilaire**, **Joseph Edgar** (New Brunswick), **Vishtèn** (Prince Edward Island), **Swing**, **Mehdi Cayenne** and **Pandaléon** (Ontario)—appeared in the Canadian musical landscape young talents such as **Pierre Guitard**, **Caroline Savoie** (New Brunswick), **CY** (Nova Scotia), **Mélissa Ouimet** (Ontario), **Alexis Normand** and **Mario Lepage alias Ponteix** (Saskatchewan) to name a few.

The *Music Showcase* program, exclusively intended for Canadian francophone artists, has made possible **124 musical offerings across Canada** and **75 internationally**. Whether in showcases or complete shows, **32 artists** have thus been able to demonstrate their talent and reach a diverse audience as well as music industry professionals.

Artistic talent is great, but initiatives to promote it are just as important! Whether in Canada, through the various events and organizations in these communities, as well as in Québec events that place an ever greater emphasis on artists from francophone minority communities, or abroad, where these artists shine under the spotlight at partner events (*Aurores Montréal*, *Folk Alliance*, *Festival Interceltique de Lorient*, *L'Estival*, *Voix de Fête*, *MaMA*, *Nuit Boréale*, *Festival Pause Guitare*) we can say more than ever that the Canadian Francophonie is a place of choice in the musical landscape.

Here are the talented artists who enriched Canada's francophone musical culture in 2016-2017, and the Canadian organizations that promote them:

ACCESS TO FUNDING

The Foundation has instituted application and selection mechanisms aimed at ensuring that the projects we fund reflect **Canadian music's wide diversity**. Hence, funding is attributed in two ways. The first, via **direct approval**, allocates funding to Recognized Record Companies on an ongoing basis, bypassing the selection process — this system is predicated on the companies' proven track record guaranteeing their future performance. The second way funding is attributed is via a **jury selection process** whereby projects are judged either by an external evaluation committee using a chart or solely by means of a chart.

Here is the list of companies that obtained the status of Recognized Record Company for the year 2016-2017:

Involving four separate committees—for *popular music*, *alternative music*, *non-vocal music* and *OLMC music (from official language minority communities)*—each jury consists of artists, media representatives and industry professionals chosen according to their knowledge of the music category and regional realities. This path is taken mainly by author-subsidized artists and young companies. Through these two access points to its programs, Musicaction **guarantees that musical diversity and new trends have a voice**, as evidenced in the following table displaying the projects funded according to music category.

Results stemming from the review of applications for Album Production, Song Production and Promotion, and National and International Marketing, excluding 4 music catalog projects

*Album projects approved through the Album Production Program

In the interests of transparency and integrity, but also to better inform its customers, Musicaction documented its jury selection process in order to provide all stakeholders, including applicants and jurors, with a comprehensive policy for a better understanding of the rules and procedures governing the establishment and maintenance of its juries. This policy is available on our website.

Whatever the approval method, a project's acceptance is still subject to the applicant's financial capacity to carry out future projects. The Board of Directors confirms the approval of all projects. A huge thank you to all who participated in a project artistic evaluation committee in 2016-2017.

APPROVED APPLICATIONS— NEW MUSICAL WORKS COMPONENT

ALBUM PRODUCTION

104 artists or groups—\$1,530,259

This program is intended for album and music DVD production. Unless from a Recognized Record Company, album projects are evaluated based on their artistic merit by an independent jury. Projects are ineligible for evaluation by jury if they pertain to artists who received Musicaction funding for four album projects (for francophone vocal music) and seven album projects for other music genres, or artists having sold over 150,000 copies during the course of their career.

To be eligible, applicants must have a distribution deal with a physical or digital distributor recognized by Musicaction, and the album must comply with Canadian and French-language content requirements. For albums subject to jury evaluation, Musicaction funding can reach \$30,000 for francophone vocal music and worldbeat projects, and \$20,000 for other music genres. Funding can be as high as \$50,000 for albums produced by a Recognized Record Company.

Song Promotion: 20 artists or groups—\$132,096

This program is intended for Recognized Record Companies and applicants who have a distribution contract with a recognized physical or digital distributor or who are working with a record label that has such a contract. The recording must comply with Canadian and French-language content requirements. Funding for production purposes is capped at \$12,000, i.e. \$3,000 per song for a maximum of 4 songs, and at \$10,000 for promotion purposes. Projects subject to jury consideration under this program are evaluated at 40% for artistic merit and at 60% according to the evaluation chart.

SONGWRITERS AND COMPOSERS GRANT 589 songwriters and composers— \$636,012

To foster the development of an original music repertoire and collaboration between songwriters and composers, funding is automatically granted to Canadian songwriters and composers who took part in an album or a song whose production was funded by Musicaction. It has to be for a work of at least 60 seconds that is being reproduced for the first time on a commercial platform. Funding is limited to the Canadian portion of the work.

EMERGING ARTIST SUPPORT PROGRAM

Component 1 – Production Support: 6 artists or groups—\$28,500

Component 2 – Artist Integration: 14 organizations—\$129,806

The **first component**, Production Support, has the main objective of professionalizing and integrating early-stage artists into the music industry and is geared only to emerging artists. Funding per project may reach \$5,000 for the production of two to four digital titles including canvassing activities for their integration into the industrial structure. The artist must not have already recorded an album or, in the opposite case, the works must not have been marketed in the traditional retail circuit but rather independently. An exception is made to this rule for artists from Canadian French-language communities who may have marketed a single album or digital titles. The project is evaluated at 60% artistically and at 40% at the grid pointing the path of the artist in recent years. Musicaction's contribution equals 75% of the project's eligible costs. A portion of the funding is reserved for projects by emerging artists from francophone communities living in a minority situation.

The **second component**, which focuses on Artist Integration, enables organizations that work with emerging artists to apply for funding for projects targeting the professional development and integration of one or several young artists. The funding per project may reach \$5,000 for one artist, and \$10,000 for two or more artists. Musicaction's contribution equals 75% of the project's eligible costs. A portion of the funding is reserved for projects by emerging artists from francophone communities living in a minority situation.

NATIONAL MARKETING

189 artists or groups—\$3,276,754

Projects from Recognized Record Companies and albums having received production funding automatically receive marketing funding subject to the terms of the program. The remaining applications are evaluated based on a chart that takes into account the project's professional entourage, marketing plan and project performance (sales, airplay and shows).

The activities eligible for consideration under this program are promotion, image production and live performances. Funding per project cannot exceed \$60,000, from which a maximum of \$20,000 can be earmarked for image production (maximum \$15,000 for a videoclip) and \$25,000 for stage activities, including \$10,000 specifically allocated for a domestic tour.

INTERNATIONAL MARKETING

71 artists or groups—\$1,296,909

This three-component program is intended for international initiatives ultimately focused on distributing and marketing a sound recording on a territory other than Canada. All applications, including those of Recognized Record Companies, are subject to an evaluation chart. With few exceptions, the priority markets for francophone vocal music are those of the European francophonie. As for other territories or musical categories, on a case-by-case basis, it may be required to demonstrate whether career development is possible on the target territory, taking into account the musical category associated with the project and the existence of a real industrial structure in the target market.

Component 1, *Prospecting a Target Market*, makes it possible for artists to travel to a targeted territory for the presentation of a show, a showcase in front of foreign professionals or a tour, where at least one performance is held in front of professionals, in order to join a team that will help them develop said territory. Funding for this component is capped at \$25,000 per project and is limited to \$10,000 per trip. A project aimed at promoting the artist in order to surround them with a professional team in the target market is also eligible under this component.

Component 2, *Developing a Career in a Target Market*, aims to support efforts to develop an artist's career through support for promotional activities and performances, when the artist or sound recording, in support of the project, is linked with at least one structure-recognized professional in the target market. Unless otherwise stated or when the conditions are met for additional support, funding is limited to \$50,000 for this component and some limits apply depending on the type of activities. From this amount, the aid granted under Component 1 is deducted. The participation of an artist in an official showcase presented as part of a partner event abroad, financed in *International Market Development*, is eligible, even if the artist is linked with a VEM company and whatever the extent of this link. The applicant must be a legitimate project holder and be eligible for the program.

Lastly, **Component 3**, *Marketing of catalogs of record companies in specialized music*, is intended to support the marketing efforts of albums whose original release date is 18 months or less at the time of submission of the music label application.

ARTIST MANAGEMENT 25 companies—\$362,880

This program is intended for management companies contributing to the career development and to the professionalization of artists in music. Support may be for up to three artists, including at least one artist with up to three career albums at the time of submission. In 16-17, access was reviewed by developing two distinct paths depending on whether the company has less or more than five years of existence. The maximum potential funding is based on management revenues and the number of eligible artists, ranging from \$5,000 to \$20,000. The quality of the demand is essential since the submitted project is evaluated according to all the requests received, within the financial limits of the program.

On the basis of a management business plan, projects are evaluated using a grid that takes into account the long-term vision, management achievements, concrete involvement of the manager, investments made and the financial health of the company.

APPROVED PROJECTS— COLLECTIVE INITIATIVES COMPONENT

ACCESS TO THE QUÉBEC SCENE 20 projects—\$560,500

This program's primary purpose is to stimulate the inclusion of emerging artists who perform in French in major Québec events, as a means of fostering their career development. Specialized music events that can offer significant exposure to Canadian artists who are involved in the music field being targeted are also eligible.

The **first component**, *French-Language Music Events*, can allocate up to \$85,000 per event. The main requirement is that in the most recent edition of the event and the upcoming edition, at least eight Canadian emerging artists will have been featured whose last French-language album (or 4-track digital release) was funded by Musicaction or a Québec organization having benefited from MEC funding. Funding is granted according to the particularities of each event taking into account specific criteria among which: the preponderance of Canadian artists performing in French, the direct benefits for artists and equity between regions and major centers.

The **second component**, *Specialized Music Events*, chiefly aims is to support events in specialized music that have a real impact on the career development of Canadian artists in the musical sector in question. These events, through organized professional activities, must have a structuring effect in their musical niche and offer significant visibility for the artists who perform there. The maximum assistance is \$20,000 per event and the projects are evaluated according to a grid that takes into account several criteria demonstrating the scope of the event and the rewards for the programmed artists.

PROFESSIONAL SERVICES AND COLLECTIVE PROMOTION
13 projects—\$190,000**

This program aims at stimulating the career development of artists from Canadian French-language communities by supporting the providers of professional development and marketing services working in the music industry of said communities. Applications are evaluated based on an evaluation chart, wherein the applicant's expertise, the project's quality and the number of artists it is intended for are factored in. Equitable distribution among the three main Canadian regions and the provinces continues to be a key consideration as to how funding is allocated.

CANADA'S FRANCOPHONE COMMUNITIES MUSIC SHOWCASE

31 artists, 5 events from Canadian francophone communities, 8 Québec events and 9 national tours led by the presenter's network—\$636,580

The main objective of this program is to stimulate the programming of francophone artists from French-language minority communities at major events and tours to promote the development of their professional careers. It also aims to promote access by Canadian francophone communities to musical performances in their language. The 2016-2017 program consists of the following five components:

Component 1—*National Showcase Funding for Artists:* Intended to support artists from Canada's francophone communities who are selected to perform an official unpaid showcase before industry professionals. The maximum aid is \$4,500 per trip and covers the performance fees, travel and accommodation expenses of up to five persons, as well as promotional expenses.

Component 2—*National Tours:* Intended to facilitate access to live show activities for francophone and anglophone audiences. Its purpose is to develop artists professionally and provide them with better exposure via tours in Canada. Each tour requires two applications: one from the network of presenters and the other from the artist or his or her agent. Stage aid is granted to the show's producer, and aid is also granted to the presenters and the network. Regarding audience development, additional aid of up to \$7,500 is also granted to francophone presenters networks to stimulate the public by a specific promotion on digital platforms.

Component 3—*International Showcases and Tours:* Intended to stimulate the inclusion of Canadian francophone artists in the lineup of performers for events abroad so they can enjoy significantly broader exposure. Maximum aid is \$10,000 per trip for a showcase and \$17,500 per tour, covering performance fees, travel accommodation expenses for up to five persons, as well as promotional expenses.

Component 4—*French-Language Music Events in Canadian francophone Communities:* Intended to support Canadian events held in provinces or territories outside Québec that attract a sizeable number of industry professionals and give artists from francophone communities measurable exposure. The maximum assistance is \$30,000 per event, of which \$ 5,000 is intended for specific promotional and networking activities with invited professionals for Canadian francophone artists selected.

Component 5—*Funding for Promoting and Hosting Artists for French-Language Music Events in Québec:* Intended to promote and stimulate the inclusion of artists from francophone communities in major French-language music events, through aid up to \$1,000 per artist for professional fees and of up to \$7,500 for a specific promotional activity.

INTERNATIONAL MARKET DEVELOPMENT

37 projects—\$621,740

The purpose of the *International Market Development* program is to help Canadian artists develop their careers abroad.

The **first component** revolves around the presentation and promotion of international showcases, which generally must be held outside Canada. Applicants must be recognized for having a certain expertise in putting together artist showcases, and priority is given to projects with established ties to a foreign partner. Funding per project under the first component is capped at \$40,000.

The **second component** focuses on collective promotional initiatives whose primary objective is to spotlight the works of Canadian artists on foreign countries with a view to furthering their careers. Funding for this component can generally reach \$20,000 per project.

A **third component** aims to welcome international professionals to Canada in the context of eligible French-language events so that they can see Canadian artists performing in the best possible conditions and in front of their audience. It is an incentive to add and renew international professionals invited to an event, while offering the possibility of adding or improving tools or activities to maximize the presence of international professionals and increase the benefits for Canadian artists. The maximum support for this component can reach \$22,000 per project.

DIGITAL MARKET DEVELOPMENT

10 projects—\$340,000

With its three components, the program supports collective initiatives to optimize the offering and promotion of Canadian musical content, mainly francophone, in Canadian and foreign digital markets. Applications are evaluated according to a chart taking into account the project's collective scope, partnership quality, description quality, potential return and budgetary realism.

Component 1—*Development and Marketing of Digital Initiatives* aims at creating or updating a platform, website, application, tool or any other interactive project legally offering Canadian music content online. The aid can cover eligible costs for designing, developing and promoting this type of initiative or a combination of those phases, depending on the project, and may total up to \$75,000 annually, over two years, as well as covering 50% of eligible expenses.

Component 2—*Large-Scale Promotion Project* aims at large-scale collective promotional activities or initiatives that will have a major impact on the development, visibility, accessibility or positioning of Canadian francophone music in digital markets. This component applies solely to new promotional activities or initiatives, and may cover development costs, depending on the project. Component 2 is intended for companies and organizations that by their very nature have a major collective scope. The aid covers 75% of eligible expenses and the maximum per project is \$100,000, with few exceptions.

Component 3—*Skill Development Project* aims at supporting Canadian entrepreneurs in the acquisition of skills and know-how to succeed in digital markets. More specifically, it fosters original initiatives for participating companies to better appropriate the digital ecosystem, and it helps develop effective practices and processes for their activities in those markets. The participation of at least two companies is necessary. The aid covers 75% of eligible expenses, up to \$50,000 per project.

INDEPENDENT AUDITOR'S REPORT

To the Directors of La Fondation Musicaction

We have audited the accompanying financial statements of **La Fondation Musicaction**, which comprise the balance sheet as at March 31, 2017, and the statements of earnings, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of **La Fondation Musicaction** as at March 31, 2017 and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

1. STATUTES AND PURPOSE OF THE ORGANIZATION

La Fondation Musicaction was incorporated on September 9, 1985, as a non-profit organization without share capital, pursuant to Part II of the Canada Business Corporations Act. In December 2013, La Fondation Musicaction extended these statutes under section 211 of the *Canada Not-for-profit Corporations Act*.

La Fondation Musicaction is a non-profit organization whose objective is to assist in the promotion, management, production, and marketing of sound recordings and video-clips in Canada or in foreign markets. For this purpose, La Fondation Musicaction offers financial contribution programs that are available to artists, record companies, producers, publishers, managers, distributors, and to Canadian authors and composers, as well as to associations.

Pursuant to the *Income Tax Act* (Canada) and the *Taxation Act* (Quebec), La Fondation Musicaction is classified as a non-profit organization, and therefore, is not subject to income taxes.

2. FUNDING OF THE ORGANIZATION

On April 16, 2015, two contribution agreements were signed between the Department of Canadian Heritage and La Fondation Musicaction for the administration of the Canada Music Fund and, more specifically, for two programs entitled New Musical Works and Collective Initiatives. These agreements will provide for the following annual contributions of \$4,718,290 for the year which will end on March 31, 2018 as well as \$4,178,790 for each of the years which will end on March 31, 2019 and 2020 for the program New Musical Works and the following annual contributions for the Collective Initiatives program of \$1,990,243 for the year which will end on March 31, 2018 as well as \$1,699,743 for each of the years which will end on March 31, 2019 and 2020. The contributions received during the year amounted to \$4,718,290 (\$4,178,790 in 2016) for the New Musical Works Program and \$1,990,243 (\$1,699,743 in 2016) for the Collective Initiatives program. Under these agreements, a maximum of 13.5% of the contributions may be allocated to administrative and communication expenses, audit fees and assessment expenses incurred by La Fondation Musicaction.

3. SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO) and include the following significant accounting policies.

Use of estimates

The preparation of these financial statements, in accordance with ASNPO, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the current period. The most subjective estimates relate to the Impairment of long-lived assets and lifespan of capital assets and intangible assets.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

La Fondation Musicaction uses the deferral method of accounting for contributions. Contributions originating from the Canada Music Fund are accounted for based on financial contributions granted, while contributions from radio broadcasters are accounted for using the cash basis of accounting, with the exception of products for which a firm commitment has been given.

Contributions from radio broadcasters are an express underlying condition for obtaining and renewing their broadcast licenses with the Canadian Radio-television and Telecommunications Commission (CRTC).

In addition, in the case of transactions involving the acquisition of radio broadcasting companies, the CRTC specifically demands that the acquiring party make contributions to agencies that are dedicated to the development of Canadian talent. La Fondation Musicaction benefits from a portion of these contributions, which have been accounted for as transfers of ownership.

Financial instruments

Measurement of financial instruments

La Fondation Musicaction initially measures its financial assets and liabilities at fair value. They are subsequently measured at amortized cost except for investments in mutual funds units which are measured at fair value. Changes in fair value are recognized in the statement of earnings.

Financial contributions

All of the programs offered by La Fondation Musicaction are in the form of financial contributions and are accounted for as expenses when they have been fully allocated.

Capital assets

Capital assets are recorded at historical cost. Amortization is calculated using the straight-line method based on the following periods:

Condominium	25 years
Furniture and office equipment	7 years
Computer equipment	4 years
Telephone equipment	10 years

Intangible assets

Intangible assets are recorded at historical cost. Amortization is calculated using the straight-line method over a four-year period.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of long-lived assets

A long-lived asset is tested for impairment whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. An impairment loss is recognized when the carrying amount of the asset exceeds the sum of the undiscounted cash flows resulting from its use and eventual disposition. The impairment loss is measured at the amount by which the carrying amount of the long-lived asset exceeds its fair value.

Contributed services

Members of La Fondation Musicaction's Board of Directors attend Board meetings without compensation. The value of the time donated by these directors is not recorded in the financial statements, because it would be difficult to measure its fair value.

Cash and cash equivalents

For cash flow purposes, La Fondation Musicaction policy is to present cash and term deposits for which the maturity date does not exceed three months from the date of acquisition.

4. CAPITAL DISCLOSURES

With respect to its capital management, La Fondation Musicaction's objective is to preserve its ability to pursue its operations in order to continue to comply with its purpose as described in Note 1, taking into account its financial resources which allow it to meet its remaining commitments and to pay financial contributions to newly submitted projects.

Except for the fact that a maximum of 13.5% of the contributions may be allocated to administrative, communication, audit and assessment expenses, under external rules, La Fondation Musicaction, is not subject to capital requirements.

5. INTERNALLY RESTRICTED NET ASSETS

The Board of Directors allocated net assets in the amount of \$4,486,669 (\$4,377,567 in 2016) in order to cover the payment of commitments related to financial contributions for which La Fondation Musicaction was committed as at March 31, 2017, and to provide for administrative expenses related to monitoring and settling these commitments estimated at a maximum of 13.5%.

11. RELATED PARTY TRANSACTIONS

La Fondation Musicaction paid financial contributions to related enterprises totalling \$655,063 (\$396,167 in 2016). The parties are related due to the fact that their representatives are directors of the organization. These related enterprises satisfy all the criteria established by La Fondation Musicaction, and as such, they do not benefit from any special status or privilege because of their representation on the Board of Directors.

Management declares that these transactions were concluded under the same terms and conditions as transactions with other applicants, and they are valued at the exchange amount.

12. COMMITMENTS

Contributions d'aide

Financial contributions

As at March 31, 2017, La Fondation Musicaction is contractually committed to advance funds totalling \$3,880,968 (\$3,786,595 in 2016). Of this amount, a portion of \$329,382 (\$181,849 in 2016) represents commitments to related enterprises. In order to realize its commitments, La Fondation Musicaction will incur administrative expenses of a maximum of 13.5%.

13. FINANCIAL INSTRUMENTS

Credit and liquidity risk

As at March 31, 2017, La Fondation Musicaction recorded contributions receivable from Patrimoine Canada. Those contributions were received shortly after year-end. During the year, all the contributions provided for in the agreements with Patrimoine Canada were received.

However, the agreements stipulate that all payments made under those agreements are subject to the credit grants by the Canadian Parliament and the continuance of the actual budget and the budget estimates for the programs.

Thus, the Federal government can, at its discretion, decrease the financing and cancel those agreements by sending a written 90-day prior notice to La Fondation Musicaction. Should the financing be terminated, La Fondation Musicaction would be reimbursed for all the costs incurred up to the date the notice comes into effect, subject to the agreements' terms and conditions. If this event occurs, La Fondation Musicaction could be exposed to the mentioned risks.

Interest rate risk

La Fondation Musicaction is exposed to interest rate risk regarding its financial instruments with fixed interest rates. Financial instruments with fixed interest rates expose La Fondation Musicaction to a fair value risk. As at March 31, 2017, La Fondation Musicaction holds term deposits with short and long-term maturities, as well as capital shares with long-term maturities which involve this risk.

Other price risk

Other price risk that the fair value of future cash flows of financial instrument will fluctuated because of market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. La Fondtion Musicaction is exposed to other price risk through its investments in mutual funds units.

14. PENSION PLAN

La Fondation Musicaction has a defined contribution pension plan providing pension benefits to its employees with at least three months of service. Contributions to the pension plan represent 7% of the basic salary and are subject to the employee's voluntary contribution of 3.5%. The pension plan costs of \$49,226 (\$49,340 in 2016) are included in salary expenses in the statement of earnings.

15. COMPARATIVE FIGURES

Comparative figures have been reclassified to conform to the presentation adopted in the current year.
